

## What product markings will be recognised from 1 January 2021 to 31 December 2021?

The requirements on product markings in the UK will change from 1 January 2021 with the introduction of a new UK Conformity Assessed Mark (UKCA). From 1 January 2022, new provisions are expected to apply and further information will be provided on these changes nearer to the time.

There will be three different marks in circulation:

- **CE** – The European Union and European Economic Area (EEA) marking for product conformity
- **UKCA** – The UK Conformity Assessed mark
- **CE & UKNI** – The Northern Ireland mark which will always be accompanied by the CE mark

This simple guide shows which mark will be acceptable in each location.

### Great Britain

### Northern Ireland

### European Union and European Economic Area
