- ✓ Compliance and accreditation
- ✓ Product lifecycle management
- ✓ Packaging data (Country and UOM specifics)
- ✓ Media & Data Sheets

# Product data attributes

EDATA master data attributes reside in the Proplanet PIM:

Attributes are shown in following views:

- ✓ Product
- ✓ Logistics
- ✓ Media
- ✓ ETIM
- ✓ GS1
- ✓ Packaging

(all views all fully configurable for the user)

The screenshot shows a software interface with a blue header bar containing navigation icons and the text 'ETIM'. Below the header is a table with the following columns: Relation (Suppliers), Suppliers partnumber, Unitcode, Mini... amount, Unit name, Maxim... amount, May be broken, Number of parts, Gross weight (kg), Packaging length (m), Packaging width (m), Packaging height (m), EAN-code packaging, and Carton Package Length (mm). The table contains six rows of data for 'Lighthouse Electrical' products with various specifications.

## Packaging View:

Enables users to manage products with the same MPN, with one to many product variants. MPN, country specific export destination, UOM, Packaging materials, Carton GTINs, weight etc.

Packaging and Logistics (volumetrics) are functional views that EDATA is planning to expand upon

*Please see our stand as we are available to provide a full demonstration of the Proplanet PIM and how EDATA master data template is being used.*

# EDATA Master Data Template

As a **Manufacturer** you can easily create bespoke flexible import and export routines to Data Pools, Wholesalers and Merchants via API or scheduled export tiles.

As a **Wholesaler** you can receive data via API or preferred import file format. You can create flexible export routines in multiple languages for multiple locations

# Exchange of Data

The 'Export' interface displays a grid of export options. The top row includes '2ba' (multiple instances), 'Dico (GeoDOT)', 'Hubs04', 'Link 2BA', 'UnFeedData', and two folder icons. The bottom row includes 'EDATA TILE', 'FABDIS v3.0', 'FABDIS v3.0', 'BMECH 1.2', 'BMECH 2.2 2005', 'BMECH 3.1', 'Relux / Dialux (GLDF)', 'Detaxera 4.0', 'Detaxera 5.0', and 'PAB 3.00 Attachments'.

Four icons representing different data export formats: EDATA TILE (green), BMF TILE (green), FABDIS v3.0 (green), and Relux / Dialux (GLDF) (purple).

The 'EDATA TILE - Variables' window shows a 'Variables' section with a list of variables and their values. It includes a 'File' field and a 'Settings' section with checkboxes for 'Export active classes and features', 'Export only selected brands', 'Export only active prices', and 'Export media files (Attachments)'. There is also a 'Media language' dropdown.

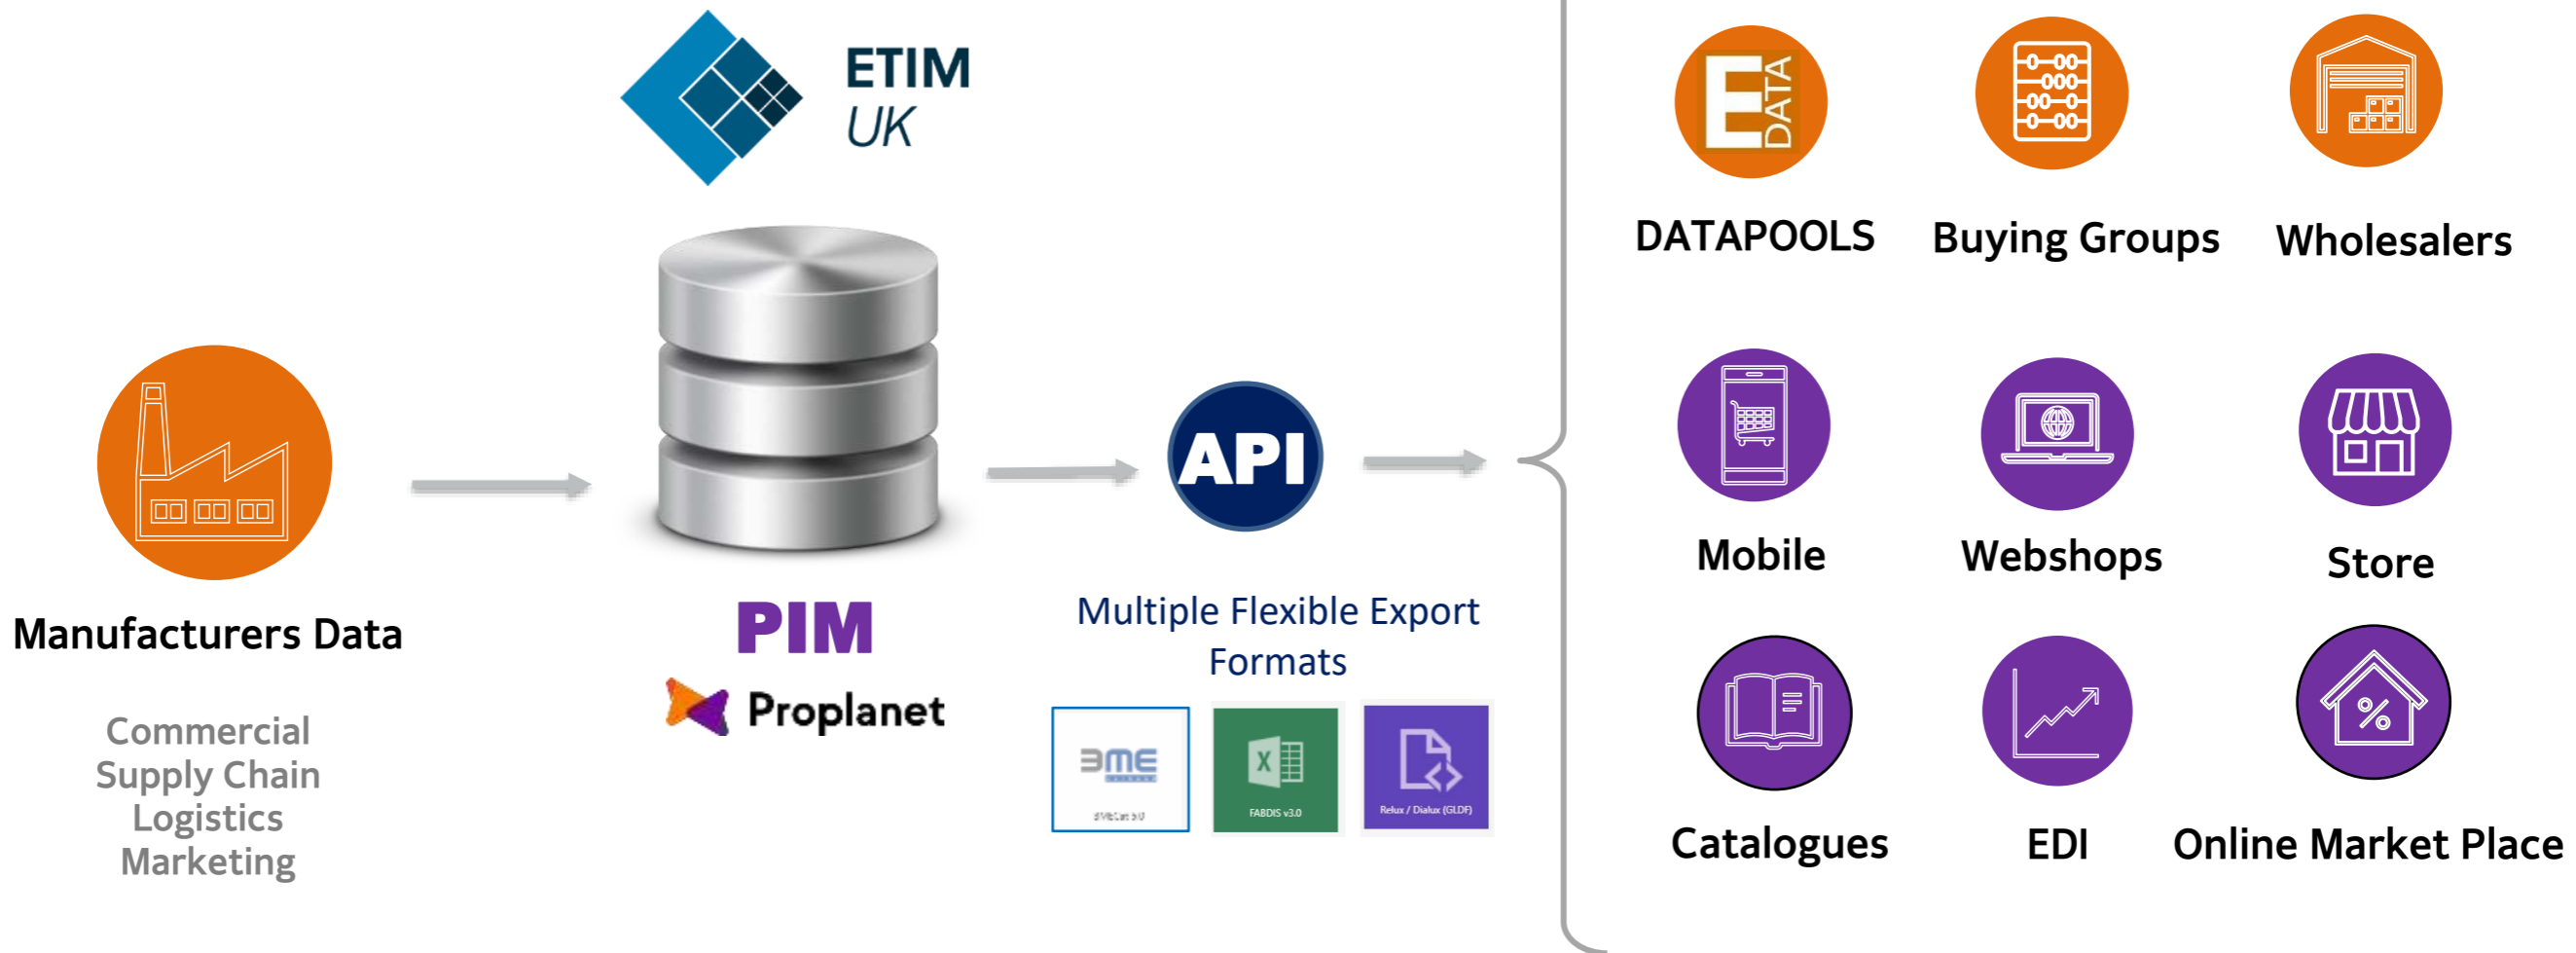

The 'Manage product data languages' window allows selecting the languages in which product data is maintained. The list includes:

- Czech (Czech Republic)
- Danish (Denmark)
- Dutch (Belgium)
- Dutch (Netherlands)
- English (United Kingdom)
- English (United States)
- Finnish (Finland)
- French (Belgium)
- French (France)
- French (Switzerland)
- German (Austria)
- German (Switzerland)
- Italian (Italy)
- Italian (Switzerland)
- Norwegian (Bokmal - Norway)
- Polish (Poland)
- Portuguese (Portugal)
- Romanian (Romania)
- Slovenian (Slovenia)
- Spanish (Spain)
- Swedish (Sweden)
- Walloon (Belgium)

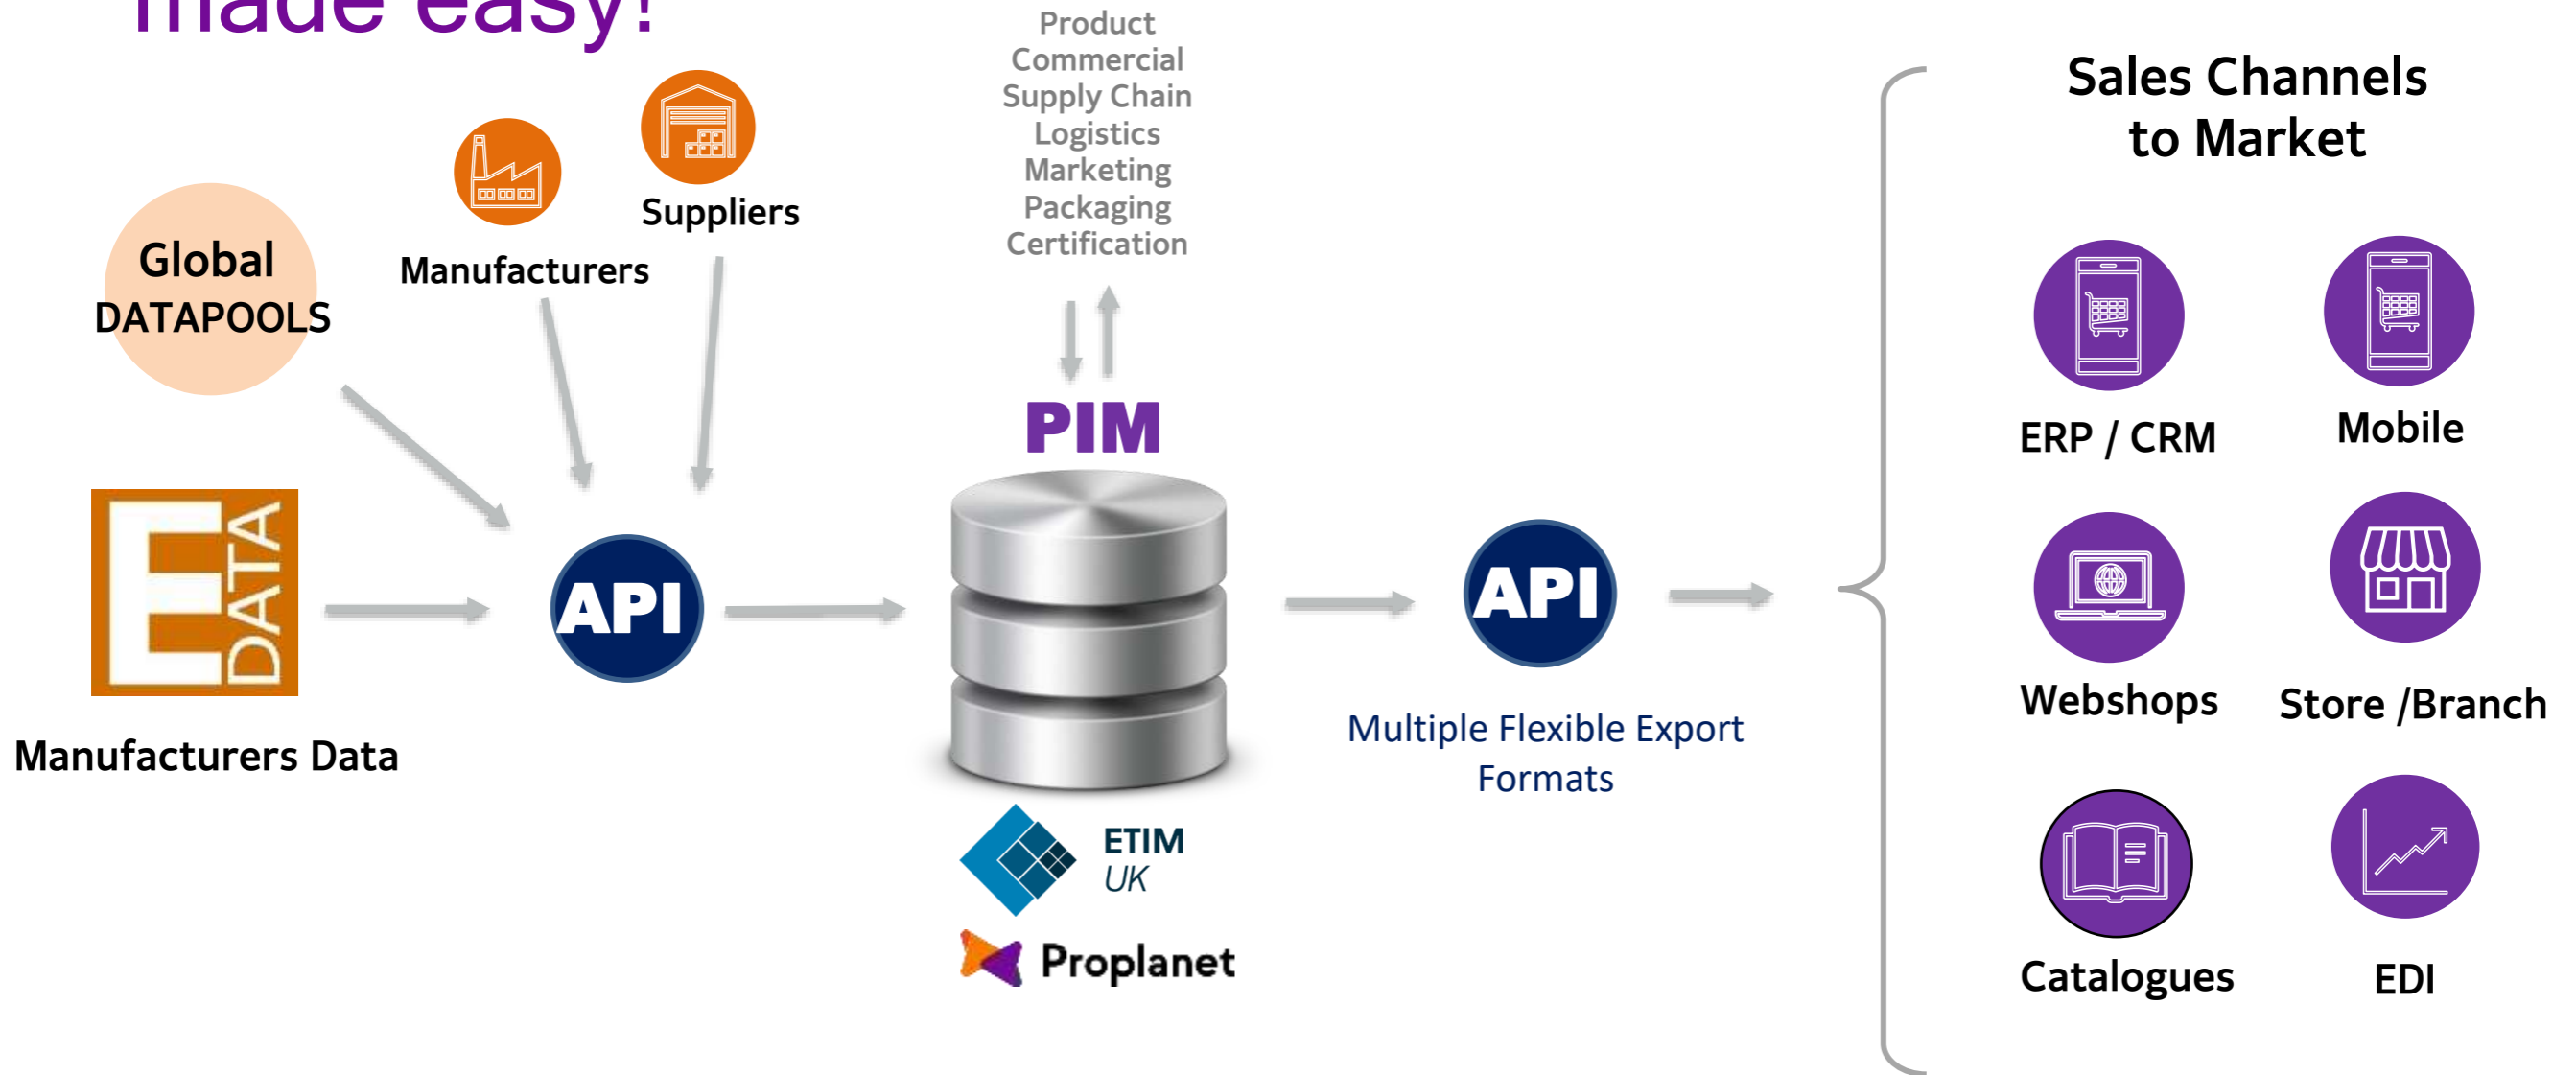

The 'DataProcessor - (DP\_Data\_Services\_Sales) - Add scheduled task' window shows the configuration for a scheduled task. The 'Schedule' section is checked, and the task is named 'EDATA\_EXPORT'. The 'Type' is 'Import / Export', the 'Database' is 'DP\_Data\_Services\_Sales', and the 'Frequency' is 'Weekly'. The 'Recurrence' is set to '1 week(s) on' with checkboxes for days of the week. The 'Start date' is '20-11-2023' and the 'End date' is '31-12-2023'. The 'Summary' states: 'Occurs every 1 week(s) on ... at 11:31. Schedule will be used between 20/11/2023 and 31/12/2023.'

The 'DataProcessor API' Swagger interface shows the API documentation. The 'Schemes' dropdown is set to 'HTTPS'. The 'Edit Api key' dialog is open, showing the 'ApiKey' for 'DataProcessor' and 'ReluxBridge'. The API endpoints are listed under 'AutoPub', 'Brand', and 'Classification'.
